

*Massachusetts*

**HI, I'M ANNE!**

I have always been artistic, majoring in Psychology with a minor in Art at the University of Massachusetts at Amherst. I channeled that creativity into the digital design world for over 20 years as a Graphic Designer.

My passion for photography grew out of my love of capturing my 3 sons, and being able relive those memories through pictures. Showcasing a homeowner's property is not only very personal, but can be technical, highlighting the homes best features without sacrificing quality and accuracy. As a self-starter, problem-solver, and an effective communicator, I would be honored to showcase your home and be part of your journey.
